

Begin from cell (19, 19) of your RV-bank. All students whose last names begin with any letter from A-L should select row-wise and the rest, column-wise selection approach.

You are playing a game designed by a simulation instructor. At each stage, you have two options going left or right. You need to go through the maze until you either leave the maze or you have left the last node twice, or you have left any other node 3 times.
